BUILDING

■ VFE, Vasquez Factoring Exchange

FOUNDER · 2026

Neutral "factoring in a box": runs a factor's operations and arranges its senior capital.

Live MVP in 40 minutes. Runs end to end on a custom AI system, every decision verified at source.

■ FactorFox Capital + AI Ingestion

FOUNDER · 2025-2026

Capital product and data automation for a family factoring business.

Full financial product built in 3 days. AI ingestion app, built in 4 hours, cut customer onboarding from 6-18 months to 1 day. Live in production.

■ Sail Wellness

FOUNDER · 2024-2025

Consumer-health holdco. Three SAIL products: AI food-tracking app, clean-shopping browser extension, product-toxicology risk model.

Won Best Pitch at Daymond John's Big Pitch Night, beating 5 funded companies. Advisor Dr. James Anibal (Oxford PhD, equity); met Dr. Leonardo Trasande (NYU).

■ Internal AI Build System

CREATOR · 2026

A custom Claude-based operating system: agents, connectors, a coordination protocol, and 6 reusable build kits (schema mapping, cloud deploy, GitHub, coordination, site deploy, autonomous "auto-auto").

The engine behind the speed above. Idea to shipped in hours, not months: the 40-minute MVP and the 3-day financial product both ran on it.
